

August 1, 2017

Dear Deer Lake Property Owner –

Have a septic system at your Deer Lake property? Then this meeting is for you!

You are invited to a **7pm Thursday August 17 community meeting** about septic systems at the Deer River Town Hall. The purpose of the meeting is for Deer Lake lakeshore property owners to learn more about their septic system.

- How septic systems work
- Best practices for maintaining septic systems
- Special responsibilities for lakeshore property owners
- How septic systems can become inefficient or fail over time
- How inefficient and failing septic systems contribute to the ongoing greening of Deer Lake
- Difference between having a septic tank pumped every few years and ordering a septic system compliance inspection
- What an inspector is and is not looking for when performing a compliance inspection
- DLA septic compliance inspection offer

The community meeting is 7pm – 8:30pm, Thursday August 17, Deer River Town Hall, located at 41183 County Road 19, Deer River, MN.

Please attend to learn more about your septic system. Meeting is informal. No need to RSVP. Hope to see you there!

Thank you,

John Davis
