

Shoreland Planting

Participants spend one day assisting with the site preparation and planting of a shoreland landscaping project on Bass Lake.

Introduction to Shoreland Landscaping

This one-day workshop will cover the importance of native shoreland vegetation and how to plan and install a shoreland buffer of native plants. Come prepared to design a shoreland buffer for the property of your choice.

Shoreland Maintenance

Learn from the successes and challenges of other projects. Visit three existing shoreland landscaping projects to see for yourself how plant selection, site preparation and maintenance affects project appearance and success over time. Strategies for weed and pest control, erosion control and replanting will be discussed.

To help us prepare for each workshop, please answer the following questions.

1. Do you own shoreland property on a lake or river? Yes No
2. If yes, what is the name of your lake or river?

3. Are you a seasonal or year-round shoreland resident?

4. What is the most important issue facing your lake or river?

5. What is one thing you hope we'll cover during the workshop/s?

Directions to Shoreland Planting workshop:

Wildwood Resort
35748 Wildwood Road
Cohasset, MN 55721
218-328-5858

From U.S. Hwy 2, just east of Cohasset, turn north at the stoplight onto County Rd 62. Travel north on 62 for 2 miles. Turn left at the Wildwood Resort sign and continue down this gravel road (wildwood rd.) to the resort.

Detailed directions & map:
www.wildwoodresort.net/directions.htm

Directions to Shoreland Maintenance and Intro to Shoreland Landscaping workshops:

North Central Research and Outreach Center
1861 Hwy 169 E.
Grand Rapids, MN 55744
Phone 218-327-4490

Located east of downtown Grand Rapids on Hwy 169, next to Itasca Community College. Turn at the University of MN Research and Outreach Center sign and continue to the Center (brick building on right). Parking is available on the left as you drive in, and on the right just after the Center.

Workshops sponsored by:

Itasca County Soil and Water Conservation District
